

**Can a phone
change your life?**

Talk on the phone with confidence.

A Captioned Telephone has a built-in screen to display everything said by the other person on the call in text. It's perfect for people with hearing loss.

Now you don't have to avoid phone calls.

Try one and you'll wish you would've done it sooner. Here's why you're going to love your Captioned Telephone:

- Works like an ordinary phone; just dial the number and see your entire conversation on your screen in real time
- Can be used as a traditional phone by simply turning off caption button
- Provides a natural, interactive calling experience

Choose the Captioned Telephone most comfortable for you.

Either way, you'll understand every word of your conversation.

Standard Captioned Phone

- Perfect for those who prefer the familiarity of a traditional telephone look and feel
- Available for use with standard analog phone lines OR with digital phone lines AND internet connections (also Wifi enabled)
- Built-in answering machine with captions

Touch Screen Captioned Phone

- Large, touch-screen display and helpful menu graphics for those wanting a more contemporary phone design
- Includes touch-key dialing pad for a more traditional dialing experience
- Use with a standard analog or digital phone line and high speed Internet connection (also Wifi capable)
